JOÃO COSTA

Full-Stack Developer

ABOUT ME

With a solid educational background in Sciences and Technologies, complemented with Informatics Engineering Bachelor, I bring a dynamic blend of academic prowess and practical experience to the table. Beyond the realm of computer science, my journey has been enriched by diverse professional experiences. For three years, I immersed myself in the fast-paced environment of catering, honing my skills in client communication. Additionally, I embarked on a summer job in Germany, where I programmed label gluing machines, fostering cross-cultural collaboration among multinational teams.

WORK EXPERIENCE

Software Tech Lead 2024 - Present

Deloitte

- Leading a cross-functional team of 15 developers in the evolution of a mission-critical low-code application that processes over 30,000 daily active users.
- Collaborated directly with Product Owners and stakeholders to define technical roadmaps and new use cases.

Full-Stack Intern Developer 2024

Samsys

- Created two new modules for an existing platform, enriching its capabilities and usability based on client feedback.
- Directly collaborated with clients to deliver tailored solutions, ensuring their needs were met effectively and fostering strong client relationships.
