JOÃO COSTA

Full-Stack Developer

ABOUT ME

Software Engineer specializing in ServiceNow and Security solutions. I bridge the gap between complex requirements and secure digital solutions. My approach is grounded in a practical, human-centric mindset, heavily shaped by diverse life experiences. My foundation goes beyond the screen. Three years in fast-paced catering sharpened my resilience and client communication, while programming industrial machinery in Germany taught me the value of cross-cultural collaboration. Currently pursuing a Master's in Cybersecurity, I am dedicated to building technical solutions that are robust, secure and impactful for the end-user.

WORK EXPERIENCE

Deloitte

Team Leader (ServiceNow) 2026 - Present

- Lead a technical team of 15 developers, overseeing the evolution of a low-code application supporting over 30,000 active users.
- Define technical roadmaps in collaboration with Product Owners, ensuring alignment with strategic business objectives.

Tech Analyst (ServiceNow) 2024 - 2026

- Contributed to the evolution of a platform by integrating new features based on monitoring and user feedback.
- Proactively resolved technical bottlenecks and system incidents, improving software development lifecycle efficiency.

Samsys

Full-Stack Developer (JavaScript and .NET) 2024

- Directly collaborated with clients to deliver tailored solutions, created two new modules for an existing platform.
